

Alfred CAMHS general services & programs

Education and Training

Staff provide one off and on-going consultation, supervision and education & training.

The education & training provided includes;

Assessment, Treatment and Case Management in CAMHS course

(This is a prerequisite for the Developmental Psychiatry Course). To access application form dates for next course [download](#)

Also seminars and workshops on specific areas to educate and promote mental health are provided on a needs basis to the community, various professional groups and to students of university courses.

Alfred Education Centre

Provides educational assessment and management of children and adolescents involved with Alfred CAMHS who are experiencing difficulties at school

See web link at top of front page for more information about services provided.

Research and Evaluation

Alfred CAMHS is committed to evaluating early aspects of clinical programs and systematically developing innovative assessment and treatment programs.

A Research, Evaluation and Practice (REP) Unit within Alfred CAMHS has commenced to facilitate and co-ordinate research and evaluation.
